

# Advance 2.0+

Advance 2.0+ is the premium version of our bestseller, Advance 2.0. It has 6 programmable keys, easy-clean wrist support and stylish design with keys outlined in white. Advance 2.0+ relieves and prevents mouse strain and other problems that can arise from working with a traditional mouse.

## Benefits of Advance 2.0+

Mousetrapper Advance 2.0+ is the upgraded version of our bestseller Advance 2.0. In common with the Advance 2.0, it has no less than 6 programmable keys, but with the same luxurious wrist support featured on the Mousetrapper Prime. The strain-reducing wrist supports can be wiped clean, and kept clean and fresh using a disinfectant.

The 6 programmable keys give you a range of options to customise your Mousetrapper to your exact requirements. The functions of the buttons can easily be changed via MT Keys.

Advance 2.0+ also has a non-foldable keyboard underlay to ensure your Mousetrapper fits perfectly with any low-profile or standard high-profile keyboard.

## Key features

- » Super-slim ergonomic design
- » Black with white accent colours
- » Control pad with click and scroll functions

## Facts

- » Width: 18.9 inch
- » Height: 0.8 inch
- » Depth: 4.3 inch
- » Weight: 1.6 lbs
- » Product code: MT122

Because Mousetrapper is positioned centrally in front of the keyboard it encourages an ergonomically healthy position that keeps your arms close to your body and your hands near the keyboard.

This helps you avoid and in many cases relieve strain injuries that can arise from over-stretching your arm, as you do with a conventional mouse. It eliminates the need to stretch beyond the keyboard while using the mouse. The wide, cushioned wrist supports also relieve strain on your neck, shoulders, arms and wrists.

## Mousetrapper's unique Control Pad

By placing your index, middle and ring fingers on the roller pad you can control the cursor with simple movements as the roller pad moves smoothly in two dimensions. You can also click anywhere on the roller pad.

## Tips for better posture and ergonomics:

- » Adjust your chair so that your feet are supported on the floor and keep your back straight while you are sitting.
- » Keep your arms close to your body while working.
- » Rest your arms on wrist supports or your desk.
- » Vary your working position; use a stand-and-sit desk to alternate between standing and sitting.
- » Position the screen at a comfortable distance that does not put strain on your eyes or neck.
- » Avoid repetitive strain injuries (RSI) by reviewing your choice of mouse.
